

HOW TO IDENTIFY GOOD REPAIR CANDIDATES

Damage is totally unpredictable and this is only a short list of the most common variables that can affect our work.

We have seen many interesting mat problems but we know we haven't seen it all. If you are unsure about any particular mat just give us a call!

MOST COMMONLY REJECTED MATS

SEVERE DAMAGE WITH NO USEFUL AREA

(REMAINING AREA IS LESS THAN SMALLEST TRADE SIZE)

DAMAGED PILE, STAINS, WET OR MOLDY

MOULDED RUBBER, SCRAPERS, FOAM
